Communication KSP

Leica Summilux optical lens
Triple lens, five focal lengths
Sony's IMX906 image sensor
Great dynamic range and great noise reduction
Leading AI experience
Powered by Xiaomi HyperOS
MediaTek Dimensity 8300-Ultra
Next-gen power, efficiency, and intelligence unleashed
Next-generation 144Hz AI display1
Ultra smooth, ultra smart display
67W HyperCharge2
Long-lasting 5000mAh (typ) battery

Master light, capture night

Next-generation Leica Optics

Leica Summilux optical lens

Xiaomi 14T's Leica Summilux optical lens features a large aperture and excellent optical performance. It not only captures beautiful detail in low-light environments, but also delivers outstanding color reproduction, contrast, and resolution.

Triple lens, four focal lengths

Capture stunning images near and far, effortlessly. Xiaomi 14T's triple-lens imaging system covers dedicated focal lengths from 15mm to 100mm.

Xiaomi AISP

Xiaomi AISP integrates the computational power of the CPU, GPU, NPU, and ISP through Xiaomi HyperOS. This results in a seamless fusion of software and hardware for advanced computational photography capabilities, significantly enhancing the efficiency of end-to-end image processing.

Leading Intelligence

Circle to Search with Google3

Instantly search what you see on your phone. A simple action starts a Google search without leaving the app or content you're on. Search any image, video, or text on your screen. Circle, highlight, scribble, or tap to pinpoint what you're curious about, no screenshots necessary.

Google Gemini4

Chat with Gemini, an AI assistant from Google, to supercharge your ideas. Get help with writing, brainstorming, learning, and more.

AI Interpreter

Introducing AI Interpreter, your ultimate real-time translation assistant for face-to-face interactions, phone calls, or online meetings.

AI Image Editing

Utilizing on-device AI models, edit your images the smart way. Expand your images with intelligent context generation, or use AI Eraser Pro to remove unwanted parts of a photo.

AI Film

Effortlessly create short, cinematic videos with the help of AI Film. Select the photos and videos you want to use, describe what you imagine, and watch as AI Film does the rest.
