

Redmi Buds 6 Active

Amazing music experience

- The 14.2mm dynamic horn has better low-frequency response and higher sound pressure level, which can bring richer and deeper bass effects.
- Immersive Soundspace Audio: Support SoundID personalized audio customization.
- Xiaomi Acoustic Laboratory tuning, four different EQ settings with different styles.

Clear voice call

- 2 MIC beamforming design. Combined with DNN acoustic ENC algorithm, can effectively filter out environmental noise and have clearer calls.
- MIC double perforation design ensures effective filtering of 4m/s call wind noise.

Compact and portable.comfortable to wear

- Small square box design, convenient for portable storage.
- The earphones weigh less than 4g and are designed for thousands of people to wear comfortably for a long time.
